

Two Tulsa Boys in List of War Casualties in the Navy

Cleo L. Vandervoort and William F. Eakim, Local Men Who Died in Service.

OKLAHOMA'S TOTAL LOSS 98

Ninety-five Enlisted Men and Three Officers Gave Lives for Country.

PNEUMONIA CHIEF RAVAGER

Thirty-nine Deaths Caused by Lung Disease, While Influenza Comes Second.

WASHINGTON, July 2.—Navy's figures on Number of sailors and officers men were exacting to the war with Germany, as prepared at the direction of Secretary of the Navy Josephus Daniels, today revealed.

The peaking for which the figures are given is from April 1, 1912, the day war was declared, to July 1, which covers two days past the date on which the peace fleet was signed at Paris.

Thirty-one of the deaths were from pneumonia, 22 from influenza and five from cerebral fever. These figures show lives taken during the evening of submission than 94%. These were on the list of fatal cases and four were drowned in the line of duty. Men killed varied from death and pleading from various causes to attributed to the other deaths. The full list is:
